

## ■ SELF LEVELING

### USES

- Leveling sealant one component, cure upon contact with moisture forming a durable and flexible seal, with excellent adhesion to most of building materials.

### FAST FACT

- Expansion joints in concrete highways, parking, sidewalks.
- Fast skinning.
- Jet fuel resistant.

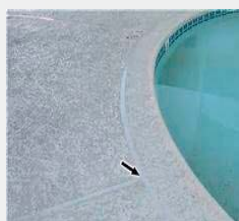

## ■ PU 250 / PU 500 (NON SAG)

### USES

- Polyurethane sealant low modulus of elasticity with good adhesion, without using primer to the building materials such as: concrete, aluminum, wood, brick, natural stone, limestone, marble, etc. Obey with the norm ASTM C-920 class 25, Use T, NT, M, A, G and O.

### FAST FACTS

- Fast skinning.
- Vertical joints of expansion between concrete panels.
- Boards of wood, aluminum and PVC pipe/PVA.
- Highly recommended for joints of concrete and clay tiles.

### ■ Packaging

**Cartridge**  
310 ml  
(10.3 fl.oz.)

**Sausages**  
600 ml  
(20.1 fl.oz.)

**Buckets**  
7 gal.  
(26.5 L)

**Drums**  
52.8 gal.  
(200 L)

**ECO  
FRIENDLY**
